EDUCATION

Bachelor's of Technology in Computer Science Engineering

NIIT University,Neemrana

07/2017 - Present

CGPA 5.7

Specialization

- Cybersecurity

Higher Secondary

S.KV.S Jr Kalasala

07/2015 - 03/2017

87%

PERSONAL PROJECTS

Capstone(Visitor Gate Pass System) (02/2019 - 05/2019)

- Visitor Gate-pass System enables the visitor of Niit University to apply for there gate-pass from anywhere in the world. It allows automates the current gate-pass system. Parents who are visiting the university can make an appointment with the faculty from a single domain. And also it enhances the security of the university.

Software Engineering Project(ETIC Portal) (09/2019 - 12/2012)

- Initially, the problem statement was defined, then with the help of problem statement we designed the SRS document, then based on SRS, we developed an SDD document. In that various wireframes are also defined.

Research and Development Project(Domain Decomposition) (02/2020 - 05/2020)

- Domain decomposition refers to divide and conquer techniques for solving partial differential equations by iteratively solving subproblems denied on smaller subdomains. We have gone through different methods and algorithms and found the optimum one, under the supervision of Dr Tapan Naskar

Nano-Electronics Premier League (08/2019 - 12/2019)

- Planned, supervised, and organized a competitive research driven project presentation league as a part of learning to learn program under ETIC (Education Technology Innovation Centre)

WORK EXPERIENCE

Teaching Assistant and Project Coordinator

NIIT University

02/2019 - 12/2019

Achievements/Tasks

- planned, supervised, and organized an industry-linked project at all the areas of BTech at NIIT University

Contact: Prof. Vijay Mandke

Web Developer

Freelancer

06/2018 - 10/2019

Achievements/Tasks

- I had designed, developed, and delivered a few websites to my clients. Those include News blogs, Websites for school, and voluntary organization.
